

Canadian Association of
Hepatology Nurses

Association Canadienne
Des Infirmieres D'Hepatologie

Join Canada's largest network of hepatology nurses for just \$75 per year.

Thank you for showing an interest in joining CAHN, a national professional organization representing and supporting hepatology nurses across Canada. We promote leadership, clinical practice, education and research in hepatology nursing, plus also providing a professional perspective to influence policy related to the care of populations at risk for and affected by liver disease.

Member Benefits:

Education

CAHN promotes and supports nurse education with one annual National Conference and two Regional Events each year:

February 28 to March 1, 2020 – 'Canadian Liver Meeting' in Montreal

May 2, 2020 – 'Atlantic Hepatology Update' in Halifax

Fall 2020 – 'BC Nurse Leaders' in Vancouver

Financial Support

Travel and accommodation expenses are reimbursed for members to attend the national conference and one of the regional events per year

Clinical Practice and Research

CAHN encourages evidence-based hepatology nursing practice and is building capacity to provide resources for nurse-led research

Standards & Competencies

CAHN maintains hepatology standards and competencies, actively working towards ensuring the education to gain these competencies is easily accessible

Communication

Members have access to our interactive website and receive regular newsletters

Networking and Social Advantages for Our Members:

Collaboration

CAHN has a proud history of working in collaboration with other health care professionals and nursing disciplines

Networking with Colleagues

Our national conference provides excellent opportunities to network with colleagues from across the country, fostering acceptance and promoting solidarity within our membership

Nursing Recognition

CAHN recognizes the hard work and innovation of nurses through our annual recognition ceremony at the Annual General Meeting
